Be inspired by this two-day instant fix of current FM thinking, with a top line-up of Conference speakers, nine Workshops and a Trade Expo showcasing the cutting edge of products and services.

**RICHARD FANELLI**  
AIA, CFM, IFMA FELLOW

Richard has spent the last 35 years as an architect designing commercial facilities, working closely with his facility manager clients. He is president of Fanelli McClain, Inc., a Washington, DC metro area-based commercial architectural and interior planning firm which he founded in 1985.

Richard is an adjunct professor at George Mason University, teaching in the Facility Management Certificate Program, and has also been an IFMA instructor since 1993. He has served as the President of the Capital Chapter of IFMA, President of IFMA's Facilities Management Consultant's Council and has served on IFMA's international board of directors.

Richard's many years of practice, teaching FMs and research in various FM issues has given him a unique perspective on FM industry trends and challenges. He has spoken at numerous IFMA conferences and has authored dozens of articles in business and FM publications.

He is the author of the book, *Best Project Management Practices*.

**TIM HOOSON**  
JASMAX

Tim joined Jasmax in 2001 after extensive time spent working in Europe, and running his own interiors practice. His influence within the practice is diverse; he counts himself not only a principal, but an architect, interior designer and workplace specialist.

Tim leads Jasmax's award-winning Workplace and Interiors team - positioning him at the intersection of workplace design and business performance. This team pioneers new workplace thinking, and they have recently partnered with representatives from local government, state-owned enterprises, industry cooperatives and corporates, to assess the future of workplace design.

**GIJS NOOTBOOM**  
VELDHOEN + COMPANY

As managing partner Australia New Zealand for Veldhoen + Co Gijs takes great pleasure in inspiring and helping organisations to define their new work-style (ABW like minded), and to encourage people to come together to make big changes for the business.

Gijs advises and coaches executive teams, project directors and steering committees, as well as monitoring project ambitions and project planning.

Developing and implementing new ways of working for almost 10 years, Gijs' experience with Activity Based Work-style projects is extensive and inspiring.

**JENNIFER MILLS**  
MINTER ELLISON RUDD WATTS

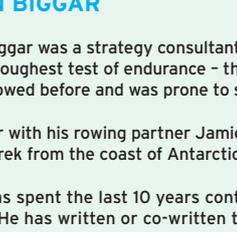

Jennifer is a Partner, Minter Ellison Rudd Watt and is an experienced employment and health and safety law expert who has acted for a large number of national and international corporates. She leads the employment team in Auckland, and was named by Chambers Global as one of the leading employment lawyers in NZ.

**ROBYN PHIPPS**  
MASSEY UNIVERSITY

Associate Professor Robyn Phipps started her career in architectural practice, where she completed a wide variety of residential, commercial and industrial projects. She moved to Massey University to fulfil a passion for research on healthy and sustainable buildings.

Robyn is a co-director of the Healthy Housing Research Group and Sustainable Cities Research consortium and member of NERI National Energy Research Institute. She is also the leader of the Built Environment Cluster within the School of Engineering and Advanced Technology.

**IAN STEWART**  
EMIRATES TEAM NEW ZEALAND

Ian has competed in two Volvo Ocean Races (Whitbread Round the World) as helmsman and trimmer aboard Tokio with Chris Dickson 93-94 and with Grant Dalton aboard Merit Cup 97-98. Both teams gained second placing.

In 1995 he raced in the America's Cup on board Chris Dickson's lead team Tag Heuer, then went on to become shore and team manager for Kevin Shoebridge's 2000-2001 Volvo Ocean Race campaign boat Tyco. Ian joined Team New Zealand after the 2003 America's Cup and has been team leader of logistics/shore base and event management.

**KEVIN BIGGAR**

Kevin Biggar was a strategy consultant with The Boston Consulting Group before he left the corporate world to take part in the world's toughest test of endurance - the trans-Atlantic Rowing race. An unusual choice for anyone, but particularly someone who hadn't rowed before and was prone to sea-sickness.

Together with his rowing partner Jamie Fitzgerald he then went on to undertake a much tougher challenge - the first ever unsupported trek from the coast of Antarctica to the South Pole and back.

Kevin has spent the last 10 years continuing his fascination with performance, personal transformation and the psychology of teams. He has written or co-written three books and his advice about how to unleash your potential has made a great impact on thousands of people. He has a physics degree from Auckland University and a Masters degree in Environment & Development from the University of Cambridge.

## CONFERENCE PROGRAMME

9:00am - 9:15am	<b>OPENING ADDRESS</b>
9:15am - 10:05am	<b>THE FUTURE IS NOW - AN INTERNATIONAL FM PERSPECTIVE</b> SPEAKER: RICHARD FANELLI, IAI, CFM, IFMA FELLOW  Richard Fanelli will address FM trends and technologies, and their impact on the future of facilities design. An architect, he has spent the last 35 years designing commercial facilities and working closely with his facility manager clients. He is an adjunct professor at George Mason University, teaching in the Facility Management Certificate Program, and is also an IFMA instructor. He is the author of the book, <i>Best Project Management Practices</i> .
10:55am - 11:25am	<b>MORNING TEA BREAK</b>
11:30am - 12:30pm	<b>WORKPLACE AS A STRATEGIC RESOURCE - A SENIOR MANAGEMENT PERSPECTIVE</b> SPEAKER: GIJS NOOTEBOOM, MANAGING PARTNER VELDHOEN + COMPANY  What strategic trends influence the future workplace. What does this mean for the role that facility management has to play in business strategy, how it adds value to the organisation, and to the staff loyalty? What are new ways of working (e.g. Activity Based Working) and how will they align with the strategic trends? So how can facilities managers create their own future and be integrated with the corporate purpose.
11:35am - 12:25pm	<b>HEALTH AND SUSTAINABILITY IN THE BUILT ENVIRONMENT</b> SPEAKER: ROBYN PHIPPS, MASSEY UNIVERSITY  Insights from Associate professor Robyn Phipps, Massey University, an expert in the design and management of healthy buildings.
12:30pm - 2:00pm	<b>LUNCH &amp; PRIZE DRAWS</b>
2:05pm - 3:05pm	<b>SMART WORKING IS THE NEW GREEN?</b> SPEAKER: TIM HOOSON, PRINCIPAL JASMAX  Trends we are seeing and expecting to grow in the workplace and how companies are responding. Some of these exciting developments blend smart ways of working with technological advances that can save organisations money over the long term. Facilities Management has a key role to play in planning and overseeing the building and service requirements of these new developments.
3:10pm - 3:40pm	<b>AFTERNOON TEA BREAK</b>
3:45pm - 4:45pm	<b>FEARLESSLY FACING CHALLENGES</b> SPEAKER: KEVIN BIGGAR  Do you have a big challenge coming up this year? Kevin Biggar was overweight and out of work when he decided on a whim to take on the world's toughest endurance event - the trans-Atlantic rowing race. He not only won the race, he set a new world record, and went on to trek unsupported to the South Pole. In a highly entertaining and surprising story of boats, blizzards and bikinis the First Crossings co-host shares his method for taking on daunting goals.
4:35 - 4:45pm	<b>CLOSING ADDRESS</b>
4:45pm	<b>POST CONFERENCE DRINKS</b>

Registration details and full programme at [www.FMANZ.org](http://www.FMANZ.org)

**ROSEMARY KILLIP**  
BUILDING NETWORKS

Rosemary Killip specialises in building law training. She brings practical insights and wisdom from 19 years of working alongside building compliance staff, council staff and building inspectors and was the first education officer for the Building Industry Authority.

Rosemary brings with her substantial insider knowledge of how councils review and interpret the Building Act rules. She is a highly experienced building industry compliance and training practitioner as well as a small business owner of 14 years.

**VANESSA McGRATH**  
NZ GREEN BUILDING COUNCIL

Vanessa is a Senior Technical Co-ordinator at the New Zealand Green Building Council (NZGBC). Her role at NZGBC is focused on the development and management of NABERSNZ and the improvement of existing rating tools. Vanessa is a Chartered Engineer with a background in mechanical and environmental engineering and management.

She has previously worked, in Australia, Sweden and the UK, as a sustainability and engineering consultant, specialising in Building Services design.

**HERMA SCHUTTE**  
RESEARCH STUDENT, FM EDUCATION

Herma Schutte is a research student at the School of International Facility Management, Hanze University of Applied Sciences Groningen, the Netherlands.

Herma spent several months in New Zealand late last year researching and analysing the needs and opportunities for FM education in New Zealand. This study is her graduation project for her Bachelor of Business Administration degree, majoring in International Facilities Management. Herma is confident that her study will be a real catalyst in moving FM education in New Zealand forward.

**LANCE JIMMIESON**  
JACKSON ENGINEERING ADVISERS

With 35 years' industry experience covering a wide range of building services applications, Lance has developed specialist skills in improving the performance of existing buildings, and leads a company specialising in the upgrade and improvement of building stock.

Specialist skills in the application of Building Management Systems to complex buildings is a key element of the services offered, enabling improvement in system efficiencies and accessibility to end users.

In line with Lance's focus on leading improvements in the performance of buildings, he recently qualified as one of New Zealand's first Accredited NABERSNZ Assessors. Lance is also actively involved in industry training with EMANZ and the NZGBC.

**GWYN DE-ARTH**  
AUCKLAND COUNCIL

Gwyn De-Arth's career began in recreation management in 1984, after graduating in a related degree. This culminated in two separate head of recreation department positions. Through necessity, the focus of these positions was on asset and property management, which led Gwyn to change career emphasis from 2001.

On the formation of Auckland Council in November 2010, Gwyn was appointed Manager - Southern Property Operations - which covers all Council properties in an area of 1,700 square kilometers, encompassing the former Manukau City, Papakura District and Franklin District Councils and Otahuhu. Gwyn has been a member of FMANZ since 2010 and is currently Auckland Council's member co-ordinator.

**ROBYN PEARCE**  
TIME MANAGEMENT

For 21 years Robyn Pearce has been sharing her experiences and knowledge about time management with clients and readers around the world. Author of eight books, she regularly appears as a subject specialist on television and radio. She also coaches senior executives, helping them reduce the overwhelming challenge of too much to do and not enough hours.

If you'd known Robyn in earlier years, you certainly wouldn't have picked her for a future international time management specialist. Through the years of raising six children, single parenthood and then a highly successful real estate career, time management was her biggest challenge. The good news is - she won. So, she's not a theoretical expert- she's made all the mistakes in the book and now shares the solutions with others.

She holds the highest professional speaking designation - Certified Speaking Professional and is a former world president of the Global Speakers Federation, serving 10 countries.

**JOHN O'BRIEN**  
AUCKLAND COUNCIL

John O'Brien has worked in property management for 25 years, in both central and local government organisations. He is currently Manager, Regional Operations, Property, at Auckland Council. In this role, he leads a team that manages facility management services for a corporate and service portfolio comprising about 3,500 buildings.

John has also been involved in NAMS (National Asset Management Support) for about 15 years and is a director within the organisation.
